Important Questions	Answers	Why This Matters:
What is the overall deductible ?	\$5,000/individual or \$10,000/family	Generally, you must pay all the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan , each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible .
Are there services covered before you meet your deductible ?	Yes. Preventive care services are covered before you meet your deductible .	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible . See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/ .
Are there other deductibles for specific services?	No.	You don't have to meet deductibles for specific services, but see chart starting on page 2 for other costs for services this plan covers.
What is the out-of-pocket limit for this plan ?	\$6,550/individual or \$13,100/family	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan , they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met.
What is not included in the out-of-pocket limit ?	Premiums , balanced-billing charges, and health care this plan doesn't cover.	Even though you pay these expenses, they don't count toward the out-of-pocket limit .
Will you pay less if you use a network provider ?	No network restrictions.	
Do you need a referral to see a specialist ?	No. You don't need a referral to see a specialist.	You can see the specialist you choose without permission from this plan.
